

1st International Basic and Clinical Science Conference on Christianson Syndrome

In Conjunction with the Christianson Syndrome Association (CSA) Family Meeting

Hyatt Place Hotel, The Woodlands, TX
July 30th – August 2nd 2015

Christianson syndrome (CS) is a newly recognized X-linked neurogenetic disorder caused by changes in the SLC9A6 gene encoding the endosomal Na⁺/H⁺ exchanger 6 (NHE6) protein.

Confirmed Speakers Include:

Special lecture by Huda Zoghbi, Baylor College of Medicine
Arnold Christianson, South African National Health Laboratory Service emeritus
Laurent Counillon, University of Nice
Robert Edwards, UC, San Francisco
Sofia Lizarraga, University of South Carolina
Anne McKinney, McGill University
Eric Morrow, Brown University
John Orłowski, McGill University
Annapurna Poduri, Boston Children's Hospital
Rajini Rao, Johns Hopkins School of Medicine
Charles Schwartz, Greenwood Genetic Center
Jakub Sikora, Charles University - Prague
Petter Strømme, University of Oslo
Steven Walkley, Albert Einstein College of Medicine

To register visit: www.csa-cares.org or for more information email ChristiansonSyndromeMeeting@gmail.com

There will be opportunity to present scientific abstracts as a talk or poster. Please submit your title and abstract (250 word limit) to ChristiansonSyndromeMeeting@gmail.com

Co-Organizers:

Eric M. Morrow MD, PhD
Associate Professor, Brown University

Steven U. Walkley DVM, PhD
Professor, Albert Einstein College of Medicine
